Proficient full-stack Web Developer with a knack for creating aesthetically pleasing, industry-standard products, while paying attention to the smallest of details. 6+ months of industry experience in the FinTech space. Fluent in developing user interfaces, APIs, microservices, and implementing new features based on user feedback.

EDUCATION

BSc.
Obafemi Awolowo University
06/2016 - 10/2022

Course
- Computer Science with Economics

WORK EXPERIENCE

Web Developer (Intern)
WoodCore
08/2020 - 02/2021   *Lagos, Nigeria.*

Achievements/Tasks
- Designed, developed, and maintained multiple APIs and microservices.
- Refined existing products—building new functionality, refactoring, improving usability and performance.
- Created internal tooling, including a dashboard to monitor operation flow and analytics.
- Created and curated multiple API documentations.
- Integrated several third-party APIs, including Paystack, Termii, Infobip, Vanso, Twilio.
- Liaised with the Growth officer to ensure automated delivery of resources, such as those of campaigns, to customers.

Backend Developer
Health Informatics Research Group (OAU)
11/2021 - 02/2022   *OAU, Ile-Ife, Nigeria.*

Achievements/Tasks
- Worked on the conceptual design, requirements gathering, and evaluation criteria for a new system (IDP Digital City). A system meant to integrate Nigerian IDPS into society).
- Developed the ER models for the system (Conceptual, Logical and Physical models).
- Wrote server-side code for the system which included both front-end and back-end capabilities
